Blue lines point to magnetic north, 250 m apart. Set your compass bearing and follow it directly; no declination math needed.

Red line: our GPS track. Squares: parking. Circles: sites (A, F1, F2 visited; B crossed out = passed; C, D gray = skipped). A, C, D approximate; B is the fire spot from the track.

Camp 150+ ft from roads, trails and water. Base map: Andy Arthur (andyarthur.org), NYS GIS / NYS DEC data. Coordinates WGS84 decimal degrees.
